# **PLANNING AND DEVELOPMENT**

## **Development & Compliance Branch**

### **1.0 Introduction**

Gympie Regional Council requires the payment of fees and charges to offset costs incurred by council in processing development applications and in providing services and copies of council documents and maps. This schedule sets out fees and charges and lists those standard contributions that may be levied by council on certain development approvals in accordance with council's policies and practices. It is council's intention that this schedule will be reviewed periodically. Any enquiries regarding fees and charges levied on development applications submitted under the Planning Act 2016 should be initially directed to Council's Planning and Development Directorate by phoning (07) 5481 0454.

### **2.0 Payment of Application Fees**

The required fee as set out in this schedule, or as reduced by concession under Section 3.0, should accompany all development applications. Any application not accompanied by the required application fees cannot be processed under the Planning Act 2016 because such an application will not be a "properly made application" as stipulated under this Act. Delays may occur until the appropriate fee is submitted to council. Applicants are urged to discuss fees with council staff before lodging any Development Application. Development Applications accompanied by cheques may be either mailed to: Chief Executive Officer, Gympie Regional Council, PO Box 155, GYMPIE QLD 4570, or delivered to the Planning and Development Directorate Counter.

### **3.0 Concessions for Charity, Sporting or Community Organisations and Other Fee Variations**

#### **3.1 Fee Reductions**

Applications by non-profit/community organisations that do not hold a liquor licence may be eligible for a 60% reduction in fees. Applications by non-profit/community organisations that hold a liquor licence may be eligible for a 25% reduction in fees. Any request to have fees reduced should include the reasons for requesting such a reduction.

Fee reductions must be pre-approved by Council prior to lodging a Development Application, or the full fee amount will be required to be paid when the application is submitted. Any request to have fees reduced must be in written form, include reasons for requesting such a reduction, and be accompanied by relevant evidence in the form of documentation confirming non-profit status.

Re-submission of a lapsed application:

A 50% reduction in fees will apply to a re-submitted development application where:

- the application is submitted within 12 months of the original approval lapsing; and
- submitted under the same planning scheme; and
- the development is generally consistent with the former approval.

#### **3.2 Fee Waiver**

Council will waive application fees for applications proposing development on council owned and/or controlled land.

Council's Chief Executive Officer or the Director Planning and Development have the ability to provide the concessions above or to reduce the fees listed in the Schedule based on the nature of the applications and/or the potential lower costs that would be incurred by council in processing the subject application.

#### **3.3 Fee Surcharges**

Development work commenced prior to receiving approval will be charged at 125% of the assessment fees.

### 3.4 Fee Refunds

Partial refunds of development application fees paid will be granted to those applications promoting targeted economic development or those incorporating sustainability principles into the design.

The developments eligible for such refunds, including the necessary criteria and timing of any approved refund, are outlined in a further guideline which can be obtained from Planning and Development.

### 4.0 Refund of Application Fees

No refund will be given in the event of a refusal of an application, or if an applicant decides not to proceed after council has decided the application.

A formal withdrawal of an application for Material Change of Use, Reconfiguring a Lot or Operational Work will attract the following refund, based on what part of the DA Rules the application is in at the time of withdrawal:

- (a) Confirmation Part – 80%
- (b) Information and Referral Part – 40%
- (c) Notification Part – 20%

Return of an application not properly made of the (Planning Act 2016) will attract the following refund:

- (a) application fee less an administrative charge of \$75.00.

Other circumstances will be determined by Council's Chief Executive Officer or the Director Planning and Development.

### 5.0 Application Fees

#### 5.1 Multipliers

The fee multipliers are used when calculating the application fee for Material Change of Use applications and Reconfiguring a Lot applications.

##### Table 5.1.1

###### *Application Type*

Fee multipliers as per application type:  
Code Assessment = 1.0  
Impact Assessment = 1.5

##### Table 5.1.2

###### *Type of Approval*

Fee multipliers as per type of approval:  
Application for Preliminary Approval = 0.8  
Application for Variation Request (s61 of the Planning Act) = 2.0  
Application for Development Permit with EITHER (i) no Preliminary Approval issued OR (ii) not strictly in accordance with a current Preliminary Approval issued by council = 1.0  
Application for Development Permit which is strictly in accordance with a current Preliminary Approval previously issued by Council = 0.7

### 6.0 Terms Used

GFA – Gross Floor Area – As defined in relevant Planning Scheme.

TUA – Total Use Area – Includes GFA plus any part of the site used for external display, storage and activities / operations associated with the use but excludes car parking and vehicle manoeuvring areas.

### 5.2 Material Change of Use

The fee for a Material Change of Use Application is calculated by multiplying the application figures from Table 5.2.1 by the relevant Fee Multipliers from Table 5.1.1 and Table 5.1.2.

# Building & Plumbing Services Branch – Building Section

## 1.0 Introduction

Gympie Regional Council requires the payment of fees and charges to offset costs incurred by Council in processing development applications and in providing services and copies of Council documents and maps. This schedule sets out fees and charges levied by Council for those services in accordance with Council's policies and practices. It is Council's intention that this Schedule will be reviewed periodically. Any enquiries regarding fees and charges levied for building development applications submitted under the Planning Act 2016 should initially be directed to Council's Planning and Development Directorate by telephoning (07) 5481 0400.

## 2.0 Payment of Application Fees

The required fee as set out in this schedule, or as reduced by concession under Section 3.0, should accompany all development applications. Any application not accompanied by the required application fees cannot be processed under the Planning Act 2016 because such an application will not be a "properly made application" as stipulated under this Act. Delays may occur until the appropriate fee is submitted to council. Applicants are urged to discuss fees with council staff before lodging any Development Application. Development Applications accompanied by cheques may be either delivered in person to the Planning and Development Directorate Counter located at 29 Channon Street, Gympie, or be mailed to:  
Chief Executive Officer  
Gympie Regional Council  
PO Box 155,  
GYMPIE QLD 4570

## 3.0 Concessions for Charity, Sporting or Community Organisations and Other Fee Variations

### 3.1 Fee Reductions

#### **Non-profit/Community Organisations:**

Applications by non-profit/community organisations that do not hold a liquor licence may be eligible for a 60% reduction of assessment and inspection fees. Applications by non-profit/community organisations that hold a liquor licence may be eligible for a 25% reduction of assessment and inspection fees. Fee reductions must be pre-approved by Council prior to lodging a building application, or the full fee amount will be required to be paid when the application is submitted. Any request to have fees reduced must be in written form, include reasons for requesting such a reduction, and be accompanied by relevant evidence in the form of documentation confirming non-profit status.

#### **Re-submission of a Lapsed Application:**

Where a development application/approval has lapsed and a fresh development application is submitted within 12 months of the application/approval lapsing and is generally consistent with the former application/approval and lodged under the same planning scheme, the applicable fee will be 50% of the current application fee.

#### **High Volume Customers:**

The following discounts are available at the discretion of the Director Planning and Development for building assessment and building inspection fees where an Applicant is prepared to enter into a memorandum of agreement (MOA) with Council:

- 10% for Applicants lodging five or more Class 1a Building Applications within a 12 month period;
- 5% for Applicants lodging five or more Class 10a Building Applications within a 12 month period.

### 3.2 Fee Waiver

Requests for the waiving of fees must be pre-approved by Council prior to lodging a building application, or the full fee amount will be required to be paid when the application is submitted. Any request to have fees waived must be in written form, include reasons for requesting waiver, and be accompanied by relevant supporting documentation where appropriate.

Council will waive all building application fees for development applications proposing development on council owned and/or controlled land.

Council's Chief Executive Officer or the Director Planning and Development have the ability to provide concessions or to reduce the fees listed in the Schedule based on the nature of the applications and/or the potential lower costs that would be incurred by Council in processing the subject application.

### 3.3 Fee Surcharges

Existing building work commenced prior to obtaining approval will be charged at 125% of both the assessment and inspection fees.

### 4.0 Refund of Application Fees

Refunds of related assessment fees will not be given in the event of a refusal of an application, or if an applicant decides not to proceed after Council has decided the application.

A formal written withdrawal of an application for Building Work will attract the following refund:

- (a) Application Stage – 80%
- (b) Information & Referral Stage – 40%
- (c) Decision Stage – Any unused inspection fees – where request is received within 2 years of the Decision Date.

Other circumstances will be determined by Council's Chief Executive Officer or the Director Planning and Development.

# Building & Plumbing Services Branch – Plumbing Section

## 1.0 Introduction

Gympie Regional Council requires the payment of fees and charges to offset costs incurred by Council in processing plumbing applications and in providing services and copies of Council documents and maps. This schedule sets out fees and charges levied by Council for those services in accordance with Council's policies and practices. It is Council's intention that this Schedule will be reviewed periodically. Any enquiries regarding fees and charges levied for plumbing applications submitted under the Plumbing and Drainage Act 2002 should initially be directed to Council's Planning and Development Directorate by telephoning (07) 5481 0400.

## 2.0 Payment of Application Fees

The required fee as set out in this Schedule, or as reduced by concession under Section 3.0, should accompany all plumbing applications. Any application not accompanied by the required application fee will not be processed until payment is received. Applicants are urged to discuss fees with council staff before lodging any application. Applications accompanied by cheques may be either delivered in person to the Planning and Development Directorate Counter located at 29 Channon Street, Gympie, or be mailed to:  
Chief Executive Officer  
Gympie Regional Council  
PO Box 155,  
GYMPIE QLD 4570

## 3.0 Concessions for Charity, Sporting or Community Organisations and Other Fee Variations

### 3.1 Fee Reductions

#### **Non-profit/Community Organisations:**

Applications by non-profit/community organisations that do not hold a liquor licence may be eligible for a 60% reduction of assessment and inspection fees. Applications by non-profit/community organisations that hold a liquor licence may be eligible for a 25% reduction of assessment and inspection fees. Fee reductions must be pre-approved by Council prior to lodging a plumbing application, or the full fee amount will be required to be paid when the application is submitted. Any request to have fees reduced must be in written form, include reasons for requesting such a reduction, and be accompanied by relevant evidence in the form of documentation confirming non-profit status.

#### **Re-submission of a Lapsed Application:**

Where a development application has lapsed because the applicant did not respond within 12 months to a Request for Information, and the outstanding information is submitted within 12 months of the application lapsing, the applicable fee for the late information will be 50% of the current assessment fee.

Where a development application has lapsed because the applicant did not respond within 12 months to a Request for Information, and an amended design is submitted within 12 months of the application lapsing, the applicable fee for the new submission will be 50% of the current assessment fee plus the current fee for an amendment.

Where a Plumbing and Drainage Permit has been issued and compliance assessable work has not commenced within 2 years of the approval date, and the work for the lapsed permit is to commence within 12 months of the approval lapsing, an Amended Permit will be issued and the applicable fee will be 100% of the current assessment fee plus the difference between the amount previously charged for inspection fees and the current inspection fee amount.

### **3.2 Fee Waiver**

Requests for the waiving of fees must be pre-approved by Council prior to lodging a plumbing application, or the full fee amount will be required to be paid when the application is submitted. Any request to have fees waived must be in written form, include reasons for requesting waiver, and be accompanied by relevant supporting documentation where appropriate.

Council will waive all plumbing application fees for applications proposing development on council owned and/or controlled land.

Council's Chief Executive Officer or the Director Planning and Development have the ability to provide concessions or to reduce the fees listed in the Schedule based on the nature of the applications and/or the potential lower costs that would be incurred by Council in processing the subject application.

### **3.3 Fee Surcharges**

Existing plumbing work commenced prior to obtaining approval will be charged at 125% of both the assessment and inspection fees.

Any late request or notification for a mandatory inspection (i.e. less than 24 hours notice) will incur a surcharge of \$50.00.

### **4.0 Refund of Application Fees**

Refunds of related assessment fees will not be given in the event of a refusal of an application, or if an applicant decides not to proceed after Council has decided the application.

A formal written withdrawal of an application for Plumbing Work will attract the following refund:

- (a) Application Stage – 80%
- (b) Information & Referral Stage – 40%
- (c) Decision Stage – Any unused inspection fees – where request is received within 2 years of the Decision Date.

Other circumstances will be determined by Council's Chief Executive Officer or the Director Planning and Development.
