Grease Trap	Outlet Filter		

Holding Tank	
Type of holding tank	Concrete / Poly
No. of person	People
Capacity	Litres
Type of pump	Submersible / other
Pump out Contractor	
Type of Alarm	

Sewerage Treatment Plant	Secondary	Advanced Secondary
Make:	Model:	
Designed for equivalent persons		
Method of disposal	Surface	Subsurface
Disinfection	Yes	No
Frequency of servicing		
Mains Electrical Powered site	Yes	No

Composting Toilets	
Manufacturers / model	
No. of persons	
Approval No.	
Distributor name	
Distributor address	
Excess liquid disposal - details and plan of disposal area required:	

DECLARATION

In accordance with the *Plumbing and Drainage Act 2002*, Section 128G, the owner of the premises must take all reasonable steps to ensure all plumbing and drainage and any on-site sewerage facility on the premises is kept in good condition and operates properly.

I hereby consent to the installation of the above on site facility and declare that all information provided is accurate. Installation will not take place until a permit for installation containing Council’s conditions has been issued.

I acknowledge my responsibility as the property owner to maintain the system and to have the system regularly serviced as per manufacturer’s recommendations.

Should any changes be made to alter the design of the proposed land application area or type of system to be installed, I will notify Council as soon as practicable to ensure accurate records are kept.
