

GUIDELINES FOR GENERAL WASTE AND RECYCLABLE WASTE GENERATION

Notes for Use:

- The waste generation guidelines represent the MINIMUM RATEABLE REQUIREMENTS for the prescribed activities.
- One (1) standard refuse service consists of one (1) 240L general waste container, serviced once per week and one (1) 240L recyclable waste container serviced once per fortnight.
- When calculating waste requirements, round up the projected waste generation value to the nearest achievable waste service.
- This table is to be used for guideline purposes only. Actual waste requirements may vary depending on individual circumstances and recycling practices. Council's Authorised Officers will make an assessment for the need and frequency of all services.

TYPE OF DEVELOPMENT	ESTIMATED GENERAL WASTE GENERATION	ESTIMATED RECYCLABLE WASTE GENERATION	NOTES ON THE USE OF BIN TYPE
RESIDENTIAL			
SINGLE DETACHED DWELLING	240L/week	120L/week	
MULTI-RESIDENTIAL (INCLUDING DUPLEX)			
<ul style="list-style-type: none"> • 1-2 bedroom • 3 bedroom and above • Relocatable Home Park 	120L/dwelling/week 120L/dwelling/week 120L/dwelling/week	60L/dwelling/week 60L/dwelling/week 60L/dwelling/week	
SHARED RESIDENTIAL
