# COMMUNITY SUSTAINABILITY

## Building & Plumbing

### Building

## Introduction

Gympie Regional Council requires the payment of fees and charges to offset costs incurred by Council in processing development applications and in providing services and copies of Council documents and maps. This schedule sets out fees and charges levied by Council for those services in accordance with Council's policies and practices. It is Council's intention that this Schedule will be reviewed periodically. Any enquiries regarding fees and charges levied for building development applications submitted under the *Planning Act 2016* should initially be directed to Council's Community Sustainability Directorate by telephoning (07) 5481 0490.

## Payment of Application Fees

The required fee as set out in this Schedule, or as reduced by concession under Concessions for Charity, Sporting or Community Organisations and Other Fee Variations, should accompany all building applications. Any application not accompanied by the required application fee will not be processed until payment is received. Applicants are urged to discuss fees with council staff before lodging any application. Applications accompanied by cheques may be either delivered in person to the Community Sustainability Directorate counter located at 29 Channon Street, Gympie, or be mailed to:

Chief Executive Officer  
Gympie Regional Council  
PO Box 155  
GYMPIE QLD 4570

## Concessions for Charity, Sporting or Community Organisations and Other Fee Variations

### Fee Reductions

#### Non-profit/Community Organisations

Building services provided to not for profit, community or sporting groups that are based in, or provide direct benefits to the Gympie region will be charged the eligible Community Rate. The Community Rate will be applied to incorporated organisations that have charity or not for profit status (as determined by Council officers referencing the Australian Charities and Not-for-Profit Commission ACNC Charity Register or through ABN Lookup).

For Building services, the Community Rate consisting 60% reduction of applicable fees will be applied for any not for profit, community or sporting groups that do not hold a permanent liquor licence. A 25% reduction of applicable fees will be applied for any not for profit, community or sporting groups that hold a permanent liquor licence.

The above concessions do not apply to any instance where Council staff do not provide the service and are required to outsource to a Private Certifier (Class 2-9 Building Classifications).

#### Re-submission of a Lapsed Application

Where a development application/approval has lapsed and a fresh development application is submitted within 12 months of the application/approval lapsing and is generally consistent with the former application/approval and lodged under the same planning scheme, the applicable fee will be 50% of the current application fee.

### Fee Waiver

## Building [continued]

Requests for the waiving of fees must be pre-approved by Council prior to lodging a building application, or the full fee amount will be required to be paid when the application is submitted. Any request to have fees waived must be in written form, include reasons for requesting waiver, and be accompanied by relevant supporting documentation where appropriate.

Council will waive all building application fees for development applications proposing development on Council owned and/or controlled land.

The above concessions do not apply to any instance where Council staff do not provide the service and are required to outsource to a Private Certifier (Class 2-9 Building Classifications).

Council's Chief Executive Officer or the CEO delegate have the ability to provide concessions or to reduce the fees listed in the Schedule based on the nature of the applications and/or the potential lower costs that would be incurred by Council in processing the subject application.

## Fee Surcharges

Existing building work commenced prior to obtaining approval will be charged at 125% of both the assessment and inspection fees.

## Refund of application fees

Refunds of related assessment fees will not be given in the event of a refusal of an application, or if an applicant decides not to proceed after Council has decided the application.

A formal written withdrawal of an application for Building Work will attract the following refund:

- (a) Application Stage (prior to any assessment) - Assessment and inspection fees only
- (b) Information & Referral Stage - Any unused inspection fees - where request is received within 2 years of lodging application
- (c) Decision Stage - Any unused inspection fees - where request is received within 2 years of the Decision Date.

A formal written withdrawal of a concurrence agency application/referral application will attract the following refund:

- (a) Application Stage (prior to any assessment) - 75%
- (b) Information & Referral Stage - 25%
- (c) Decision Stage - 0%

Other circumstances will be determined by Council's Chief Executive Officer or the CEO delegate.

## Plumbing

# Introduction

Gympie Regional Council requires the payment of fees and charges to offset costs incurred by Council in processing plumbing applications and in providing services and copies of Council documents and maps. This schedule sets out fees and charges levied by Council for those services in accordance with Council's policies and practices. It is Council's intention that this Schedule will be reviewed periodically. Any enquiries regarding fees and charges levied for plumbing applications submitted under the *Plumbing and Drainage Regulation 2019* should initially be directed to Council's Community Sustainability Directorate by telephoning (07) 5481 0456.

## Payment of Application Fees

The required fee as set out in this Schedule, or as reduced by concession under Concessions for Charity, Sporting or Community Organisations and Other Fee Variations, should accompany all plumbing applications. Any application not accompanied by the required application fee will not be processed until payment is received. Applicants are urged to discuss fees with council staff before lodging any application. Applications accompanied by cheques may be either delivered in person to the Community Sustainability Directorate counter located at 29 Channon Street, Gympie, or be mailed to:

Chief Executive Officer  
Gympie Regional Council  
PO Box 155  
GYMPIE QLD 4570

## Concessions for Charity, Sporting or Community Organisations and Other Fee Variations

### Fee Reductions

#### Non-profit/Community Organisations

Plumbing services provided to not for profit, community or sporting groups that are based in, or provide direct benefits to the Gympie region will be charged the eligible Community Rate. The Community Rate will be applied to incorporated organisations that have charity or not for profit status (as determined by Council officers referencing the Australian Charities and Not-for-Profit Commission ACNC Charity Register or through ABN Lookup).

For Plumbing services, the Community Rate consisting 60% reduction of applicable fees will be applied for any not for profit, community or sporting groups that do not hold a permanent liquor licence. A 25% reduction of applicable fees will be applied for any not for profit, community or sporting groups that hold a permanent liquor licence.

#### Fee Waiver

Requests for the waiving of fees must be pre-approved by Council prior to lodging a plumbing application, or the full fee amount will be required to be paid when the application is submitted. Any request to have fees waived must be in written form, include reasons for requesting waiver, and be accompanied by relevant supporting documentation where appropriate.

Council will waive all plumbing application fees for development applications proposing development on Council owned and/or controlled land.

Council's Chief Executive Officer or the CEO delegate have the ability to provide concessions or to reduce the fees listed in the Schedule based on the nature of the applications and/or the potential lower costs that would be incurred by Council in processing the subject application.

## Plumbing [continued]

### Fee Surcharges

Existing plumbing work commenced prior to obtaining approval will be charged at 125% of both the assessment and inspection fees.

Any late request or notification for a mandatory inspection (i.e. less than 24 hours notice) will incur a surcharge of \$50.00.

### Refund of Application Fees

Refunds of related assessment fees will not be given in the event of a refusal of an application, or if an applicant decides not to proceed after Council has decided the application.

A formal written withdrawal of an application for Plumbing Work will attract the following refund:

- (a) Application Stage (prior to any assessment) - 80%
- (b) Information Stage - Inspection fees - where request is received within 12 months of lodging application.
- (c) Permit Stage - Any unused inspection fees for a fixture, apparatus or appliance (where a fixture, apparatus or appliance has not been installed) - where request is received within 2 years of the permit approval date.

Other circumstances will be determined by Council's Chief Executive Officer or the CEO delegate.

### Plumbing and Drainage Work

#### Water Connection Fees

Refer to Water Business Unit Fees

#### Sewerage Connection Fees

Refer to Water Business Unit Fees

#### Duration of Plumbing Permit

Plumbing permits for permit work are issued with a currency period of 2 years. At least 10 days prior to the end of the two-year period, if the works remain incomplete, a further fee (extension period for 2 years) is required to maintain progress for the permit. Where a permit lapses, a new plumbing application will be required for any outstanding works.

#### Re-submission of a Lapsed Application/Permit

Where work for an existing Permit had been started but not finalised and the Permit lapses, a **new** Plumbing Permit is required to continue or complete any outstanding plumbing and drainage works associated with the lapsed application. A submission fee will apply for the new application, along with payment for each additional inspection required to complete the works charged at the current inspection rate.

Note: Where Plumbing and Drainage work had not commenced under a previous Permit prior to it lapsing, a new application is required with full payment of all normal necessary fees.

## Planning

# Introduction

Gympie Regional Council requires the payment of fees and charges to offset costs incurred by council in processing development applications and in providing services and copies of council documents and maps. This schedule sets out fees and charges and lists those standard contributions that may be levied by council on certain development approvals in accordance with council's policies and practices. It is council's intention that this schedule will be reviewed periodically. Any enquiries regarding fees and charges levied on development applications submitted under the *Planning Act 2016* should be initially directed to Council's Community Sustainability Directorate by phoning (07) 5481 0454.

## Payment of Application Fees

The required fee as set out in this Schedule, or as reduced by concession under Concessions for Charity, Sporting or Community Organisations and Other Fee Variations, should accompany all plumbing applications. Any application not accompanied by the required application fee will not be processed until payment is received. Applicants are urged to discuss fees with council staff before lodging any application. Applications accompanied by cheques may be either delivered in person to the Community Sustainability Directorate counter located at 29 Channon Street, Gympie, or be mailed to:

Chief Executive Officer  
Gympie Regional Council  
PO Box 155  
GYMPIE QLD 4570

## Concessions for Charity, Sporting or Community Organisations and Other Fee Variations

### Fee Reductions

Applications by non-profit/community organisations that do not hold a liquor licence may be eligible for a 60% reduction in fees. Applications by non-profit/community organisations that hold a liquor licence may be eligible for a 25% reduction in fees. Any request to have fees reduced should include the reasons for requesting such a reduction.

Fee reductions must be pre-approved by Council prior to lodging a Development Application, or the full fee amount will be required to be paid when the application is submitted. Any request to have fees reduced must be in written form, include reasons for requesting such a reduction, and be accompanied by relevant evidence in the form of documentation confirming non-profit status.

Re-submission of a lapsed approval:

A 50% reduction in fees will apply to a re-submitted development application where:

- the application is submitted within 12 months of the original approval lapsing; and
- submitted under the same planning scheme; and
- the development is generally consistent with the former approval.

### Fee Waiver

Council will waive application fees for applications proposing development on council owned and/or controlled land.

Council's Chief Executive Officer or the CEO delegate have the ability to provide the concessions above or to reduce the fees listed in the Schedule based on the nature of the applications and/or the potential lower costs that would be incurred by council in processing the subject application.

### Fee Surcharges

## Planning [continued]

Development work commenced prior to receiving approval will be charged at 125% of the assessment fees.

## Fee Refunds

Partial refunds of development application fees paid will be granted to those applications promoting targeted economic development or those incorporating sustainability principles into the design.

The developments eligible for such refunds, including the necessary criteria and timing of any approved refund, are outlined in a further guideline which can be obtained from Community Sustainability.

## Refund of Application Fees

No refund will be given in the event of a refusal of an application, or if an applicant decides not to proceed after council has decided the application.

A formal withdrawal of an application for Material Change of Use, Reconfiguring a Lot or Operational Work will attract the following refund, based on what part of the DA Rules the application is in at the time of withdrawal:

- (a) Confirmation Part - 80%
- (b) Information and Referral Part - 40%
- (c) Notification Part - 20%

## Application Fees

### Multipliers

The fee multipliers are used when calculating the application fee.

### Fee Multipliers

Fee multipliers as per application type:

Code Assessment = 1.0

Impact Assessment = 1.5

Fee multipliers as per type of approval:

Application for Preliminary Approval = 0.8

Application for Variation Request (s61 of the Planning Act) = 2.0

Application for Development Permit with EITHER (i) no Preliminary Approval issued OR (ii) not strictly in accordance with a current Preliminary Approval issued by council = 1.0

Application for Development Permit which is strictly in accordance with a current Preliminary Approval previously issued by Council = 0.7

Fee multiplier for hardcopy applications:

Application submitted to Council in hard copy only = 1.2

### Application Fees

### Material Change of Use

The fee for a Material Change of Use Application is calculated by multiplying the application figures nominated for the applicable land use/s by the relevant multipliers above, and adding on the relevant fee for each stage being applied for. For applications involving multiple land uses, only one base fee is applicable (being the highest amount) with the relevant gross floor area/total use area/unit rates applying thereafter.
